

Pathways

Hands

Witness

I help others grow spiritually by sharing my faith story, offering spiritual encouragement, and leading others to a relationship with Christ.

First Steps

Write down the story of how you came to faith, including struggles, barriers, people and insights. This clarifies it in our minds and makes our experience real, tangible and approachable. Resist the temptation to compare your story with the experiences of others.

Next Steps

Invite someone to church, a group in which you are involved, or a church related event. Make sure the invitation is for an event or opportunity that will be approachable by the person you are inviting.

Continuing

Prayerfully consider the people in your life who seem distant from God. Begin building a relationship with them, and look for an opportunity to share your story of faith with them as an invitation to conversation.
